

# SUNSHINE GUIDE TO DUBROVNIK AND SOUTHERN DALMATIA, CROATIA

LOCATION: Dubrovnik (the former Ragusa) is located at the southeastern tip of Croatia. The city is situated on the Adriatic Coast and out onto the Lapad Peninsula. Elevations are close to sea level. A ferry service connects Dubrovnik with Bari, across the Adriatic in Italy.

COMMENTS: Bright sunshine occurs on 60% of the year's daylight hours. This ranges from a low of 45% in December, to a high of 77% in July. The expected low temperature for the year will be around 28° at some windless winter sunrise, and the high will be near 93° on some sunny summer afternoon. Sensible temperatures (the ones you actually feel) will be essentially the same as actual ones. Although a half-dozen mornings each year will start out frosty, the afternoons are always well above freezing.
