COMMENTS: The area has a mid-latitude four-season year. Bright sunshine occurs on 40% of the year's daylight hours, ranging from a low of 23% in December to a high of 49% in June. The low temperature for the year will be near 23° some windless winter sunrise, while the high will be around 81° some sunny summer afternoon. Precipitation is light to moderate, with an autumn maximum and a spring minimum. Snowfall is light, and extremely variable from year to year. The resort area is most popular during the warmer months. A typical summer afternoon will be moderately cloudy, with one clear day in four. Afternoons will be long, humid, and mild--occasionally warm, rarely ever hot. Summer nights are cool and damp.
