SUNSHINE GUIDE TO THE OJAI RESORT AREA, CALIFORNIA

LOCATION: The resort community of Ojai is located in southern California, some fifty miles northwest of Los Angeles. The town is situated in a small valley in the foothills of the Santa Ynez Mountains, a dozen miles north of the Pacific Coast. Elevations are around 750 feet above sea level.

FOGGY DAYS	11%	10%	8%	7%	4%	4%	4%	6%	10%	13%	14%	14%

COMMENTS: Bright sunshine is likely on 70% of the year's daylight hours. This might range from a low of 61% in July, to a high of 79% in November. The year's lowest temperature should be close to 23°, and the highest should be near 106°. Sensible afternoon temperatures (the ones you actually feel) will be about 4° cooler than actual ones. Ojai has long had a reputation as a retreat for the metaphysically and artistically inclined. The attractive landscape, with its orange groves and surrounding mountains has attracted a small resort industry. Warmer than more coastal locations, it escapes most of that latter area's summer fogs.
